

Truck mixer AM-9E1.B.DO
Technical Specification

1	Model	AM-9E1.B.DO
2	Standard weight	4750 kg
3	Drum	Type «B»
	Drum angle	10,5 deg
	Nominal capacity	9m ³
	Geometrical volume	15,87 m ³
	Service hatch	2 on forward cone
	Rotation speed	0 - 14 rpm
	Shell thickness	5 mm
	Blade thickness	5 mm
	Bottom thickness	7 mm
4	Hydraulic pump drive	DO - with PTO from truck
5	Power consumption	65 KW/90HP
6	Hydraulic transmission	REXROTH Pump A4VTG71 / Motor AA2FM63
	Optional	EATON Pump and Motor Series 154
7	Control	Mechanical cable control
8	Drum gearbox	ZF P4300
9	Water system	Water charging connection at two sides
	Powered by	Drum gearbox driven water pump NST III
	Optional	Air pressure system from truck
	Water tank	1000 L
	Optional	850 L
10	Accessories standard	Reinforced charging hopper with rubber extension
		Reinforced discharge shell
		Reinforced discharge rotary chute
		Mudguards with flaps
		Washing hose with brass nozzles
		Extension chute with supports and clamp
		Side guards due to Traffic Regulations Standards
